

Signal Converter / - Amplifier 4 channels into 5V (TTL)

SU2

Characteristics:

- Signal amplifier / level converter
- Transmission frequency 500kHz
- Output 5VDC (TTL)/4x 50mA
- Each channel is indicated by 1 LED
- Fast switching times from 0,2µs/0,4µs
- Supply 24VDC
- Mountable on 35mm cap rail TS35
- Clear terminal labeling
- Narrow design
- Shape 17,5mm, super low
- PB - Power-Bus - compatible
- High reliability, 5 years warranty

Description:

The units of the signal converter series SU2 have been developed for amplifying and/or level converting. There are four channels at disposal. High ohmic 24V or alternatively 5V, for example TTL signals, are transmitted into resilient 5V-signals (TTL). One LED in each output displays the switch status.

Application:

Signal conversion 24VDC (HTL) into 5VDC (TTL).
Converting high-impedance signals, signal amplification

Order-No.:

Input:

SU2-1	24VDC (HTL)
SU2-2	5VDC (TTL)
SU2-3	15VDC

Technical data

Auxiliary power:

Supply voltage : 19, 2...30VDC
Current consumption : 100mA + load

Inputs:

		Switch level:	Low	High
SU2-1	:	16, 8...30VDC,	< 5V	> 13V
SU2-2	:	3, 75...6,25VDC,	< 1V	> 3,4V
SU2-3	:	10, 5...18,75VDC,	< 3V	> 10,2V

Outputs:

Voltage output : 5VDC
Current output : Max 4x 50mA
Transmission-Frequency : 500 kHz
Switch time : ON 4µs, OFF 0, 2µs
Level : TTL

General data:

Operating temperature : 0...50°C
Storage temperature : -25...+85°C, condensation before putting into operation is not allowed
CE conformity : EN 61326-1, EN 61000-4-2/3*/4/5/6*, EN 61000-6-4
* during measurements are small deviations possible

Body:

Dimension : See drawing, 17,5mm adjoin body, 17,5x70,4x90,5mm (with terminals)
Material : PA / V0
Protection category : IP20
Connection : M3-screw-type terminal 0, 14 – 2,5mm², flexible or inflexible
Fixing : Snap-on mounting for norm rail TS35
Weight : 64g
Mounting position : As you like

Note on safety:

Disconnect the power supply before attempting to open the unit.

During the operation of this module it is possible that parts of the module, even there is extra-low voltage, (for example shunt measurement) are under dangerous voltage! Therefore a non-observance of this caution may cause damage of property or physical injury.

Only trained qualified personnel should install or operate the unit. Before installation the qualified personnel should read the documentation and should familiarize themselves with the unit.

If there is visible damage to the body of the unit it should be immediately replaced and not put into operation.

Please ensure that there is a sufficient prevention against electrostatic discharge during installation of the unit.

Installation Information:

Pay attention and make sure the unit is far away from mounted sources that may disturb the device such as magnetic coils, transformers, frequency converters etc.

Wiring advise:

Use only shielded cables. The shield is to be connected extensively to ground. Do not mix power- and signal-wires/cables in the same cable tray.

Limited guarantee:

The LEG Industrie-Elektronik GmbH warranted that the product does not have any material or processing defects in a period of 5 years after date of delivery.

It is up to the choice of LEG to repair or to exchange an inoperative unit.

Subsequent damages or any claim for indemnification above the functionality of the unit are excluded.

This limited warranty is only valid if ...

1. the product was installed and put into operation according to the LEG operation documentation;
2. the technical configuration of the power supply was abided;
3. the product was not used for unintended purposes;
4. there were no unauthorized modifications or manipulations, misuse or repairs without previous agreement from LEG .

Our Terms of Trade are based on the "General Conditions for the supply of products and services of the Electrical and Electronics Industry" including the "Complementary Clause: Extended Reservation of Property" of the ZVEI e.V. (German Association of Electrical Manufacturers).

Miscellaneous:

We expressly reserve the right, without previous notice, to correct errors contained in any data of this information brochure, and to make alterations to the program and technical modifications.
